Powerful Together: Conversations for Change
One-to-one notes

Directions: Use the conversation guide to find the intro, transition and closing words, and questions that you may use. Fill out this form so that you can enter notes afterward into the JotForm online, and so your congregation’s leadership team can follow up with people interested in getting more involved. You aren’t typing in their exact answers to these questions. Rather this form and the JotForm are asking for your observations on what you heard. You can include direct quotes in quotation marks.

The JotForm is found here: [https://tinyurl.com/powerfultogether](https://tinyurl.com/powerfultogether)

If the topic of race or privilege comes up in your one-to-one please add notes on that in a relevant section.

Be sure to ask for their consent to gather contact info. Assure them your notes about their answers will be separated from their name, but that their contact info helps us send them policy action alerts etc.
